# MEET OUR NEW BUILD CREW MEMBERS!

**Zach Decker**

Please help us welcome Zach Decker to the Farm Services Inc. build crew.

Zach lives in Remus and graduated from Chippewa Hills High School at the beginning of this year.

He has previous agriculture experience from his time working for Chevaliar Cattle Company.

In his spare time, Zach likes to hunt, fish and spend time doing outdoor activities with his girlfriend Hannah.

**Jake Nobach**

Jake Nobach is also a new build crew member here at FSI.

Jake lives in Riverdale and graduated from Ithaca High School in 2012.

He has a strong farming background having worked for local farmers in the Gratiot County area, most recently at Fisher Farms.

Jake likes to spend time in the outdoors in his spare time.

Some of his favorite activities include running dogs, hunting and spending time with his girlfriend Kristi.

Farm Services Inc. is happy to introduce Payton Huntoon as a new build crew member.

Payton lives in Alma and graduated from Breckenridge High School in 2020.

Before coming to work for FSI, Payton worked for Cary Pioneer Farms.

In his spare time, Payton likes to be outdoors. He enjoys spending time with his girlfriend Maddie and working with cattle.

*Jason Preston*  
FSI General Manager

## Notes from Jason's desk ...

One of the biggest complications of running an irrigation business is finding qualified employees and keeping them employed year-round. At FSI we spend 6 months of the year on a dead run trying to complete new installations and upgrades for the coming season as well as taking care of ongoing service work as everyone is getting in the field to plant and begin starting their systems for the first time. The other 6 months is spent drumming up work to keep employees busy through our slower season.

I have found that 50% of the work we do in the spring and summer are things that growers know need to be done but were just put off because when they finish using their systems at the end of summer, they forget about new needs and repairs.

Help us help you become more efficient and call FSI in late summer and fall so we can go over those problem areas. Let us know what issues you have or improvements you need at a time when we can properly address them before the rush. Give us a call early and help us help you prepare for the coming year.
